**There's always something happening at Famous Sam's!**

The Department of Public Health advises that eating raw or under-cooked meat, poultry, eggs, or seafood poses a health risk to everyone, but especially to the elderly, children under age four, pregnant women, and other highly susceptible individuals with compromised immune systems. Thorough cooking of such animal foods reduces the risk of illness. Prices subject to change without notice. Famous Sam's restaurants are franchised. Menu, pricing, and policies may vary from location to location.
